IT power house

We are a DevOps company focused
on innovative services.

Our platforms can work independently or as a part
of a complete ecosystem of applications that make
your work easier and more efficient.

Mi Kiosko

It's a complete *HR communication* suite for keeping in touch with your staff and provide self services 24/7 365!

10 individual services that can connect to various platforms.

With a userbase of almost **90,000 users** in different markets.

CHECADOR

FAST, SECURE AND EASY

More than a time and attendance platform!

In addition to the functions you already know such as:

Register of in/out time and break times
(GPS location of employees with the option to import this data
into multiple payroll systems)

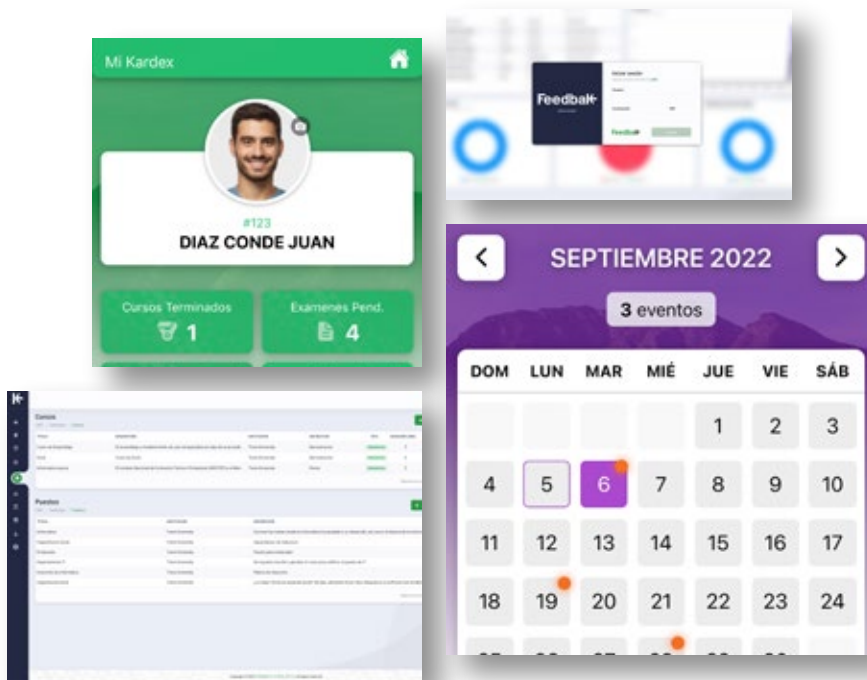

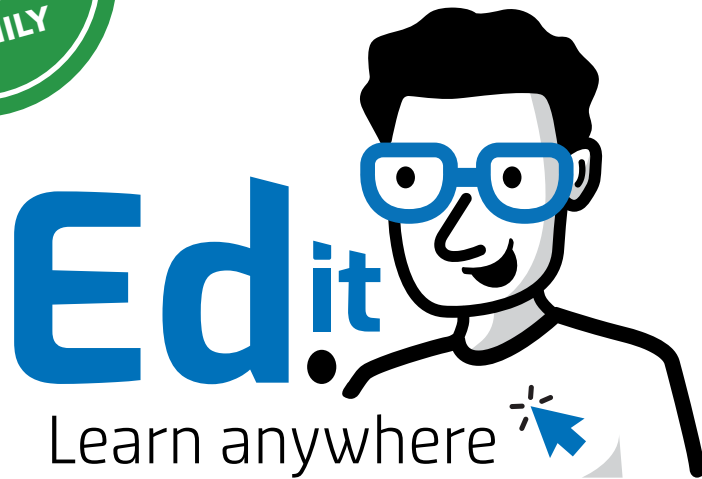

Creation of logs and reports with 3 levels of security.

Now you can also:

- Generate security logs
- Digitize and register events to fulfill your regularizations.
- Automate cost center, reports and more.

NEW
MEMBER
OF THE
FAMILY

We transform knowledge into growth opportunities.

Our Learning Management System platform is created so that employees can develop their skills through various courses, certificates and accreditations.

- Manage the training plan from a single screen.
- Communicate new courses, certificates and accreditations available in a simple way.
- Download reports in seconds.
- Evaluate training effectiveness.

TASKIN

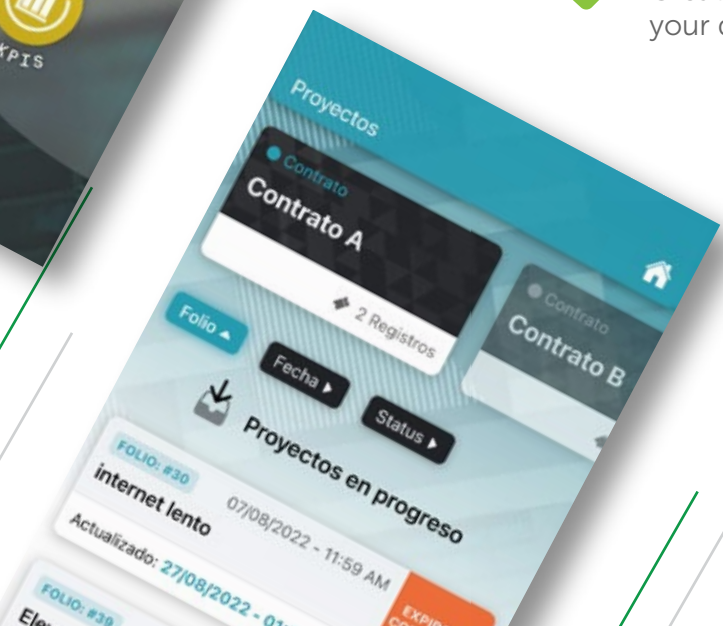

Everything in order

We simplify the way you work to achieve **MORE**.

Know the status of the tasks and requests of your collaborators and clients in real time.

- ✔ Forget about receiving multiple emails and being in workgroups because everything is in one place.
- ✔ Concentrate all the information and visualize it graphically and easily.
- ✔ The use of the platform completely secures your information so that you can work securely.
- ✔ Create, assign and authorize tasks from your device wherever you are.
- ✔ Discover the status of requests and follow-ups from your computer and mobile phone. *Always on the go!*
- ✔ Improve communication with your customers thanks to the ease and fluidity with which information is handled.
- ✔ Acces from anywhere because everything is in the cloud.

With Taskin you can carry out your projects with trazability and with a simple and intuitive design.
